Ask me about: LTSS implementation & suicide prevention for older adults

Dr. Sullivan (she/her/hers) has been a health services researcher for over 20 years in the VA and has received grant funding from both VA HSR and QUERI on several studies and evaluations. The core areas of Dr. Sullivan's research have been assessing program implementation and quality of institutional and noninstitutional LTSS in the VA as well as geriatric mental health and suicide prevention for older Veterans. Her areas of expertise include mixed methods and qualitative research designs and implementation science. When not at work, Dr. Sullivan loves running, crochet, pilates, and nature.

THRIVE Goals

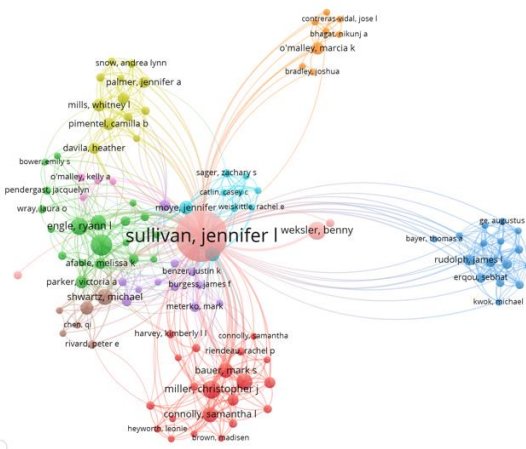

Research

Implementation science	Long-term services and supports
Suicide prevention for older adults	Mixed methods
