Ask me about: Causal inference methods, drug safety and comparative effectiveness research, navigating a research career with a pharmacy background

Dr. McConeghy graduated from the University of Rhode Island in 2010 with a Doctor of Pharmacy and completed a PhD in Health Services Research in 2024. He has been an investigator with THRIVE COIN for over 7 years and studies a variety of topics in drug safety, causal inference, and pragmatic nursing home trials.

THRIVE Goals

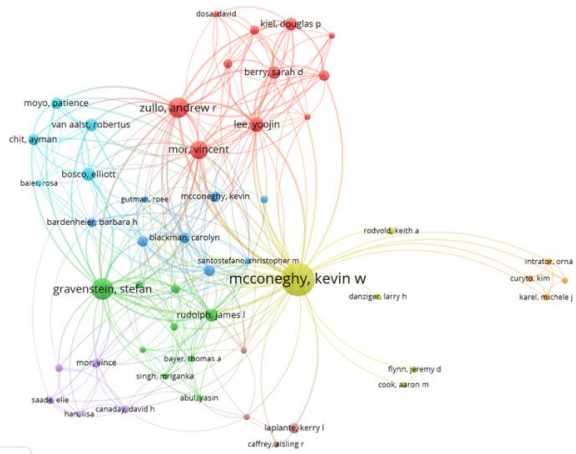

Research

Pharmacoepidemiology	Infectious diseases
Vaccine safety and effectiveness	Causal inference
