Ask me about: Palliative care, nursing homes, post-acute care

Dr. Gozalo is a health economist and health services scientist whose research focuses on access, utilization, and outcomes of Veterans with long-term care and rehabilitation needs, the seriously ill, and those near the end of life. He has been Principal Investigator and Co-Investigator on several NIH, Agency for Healthcare Research and Quality, and VA HSR-D-funded grants that have leveraged nationwide administrative databases, particularly Medicare claims and assessment datasets, and VA healthcare

THRIVE Goals

Research

Hospice	Palliative care
Nursing homes	Post-acute care
