[Thomas\\_Trikalinos@brown.edu](mailto:Thomas_Trikalinos@brown.edu)

**Ask me about:** Evidence synthesis, decision science, methods

Trikalinos training in Medicine (MD, 2002) and Epidemiology (PhD, 2006) at the University of Ioannina in Greece. His research is in the methods and applications of evidence synthesis and health decision making.

## THRIVE Goals

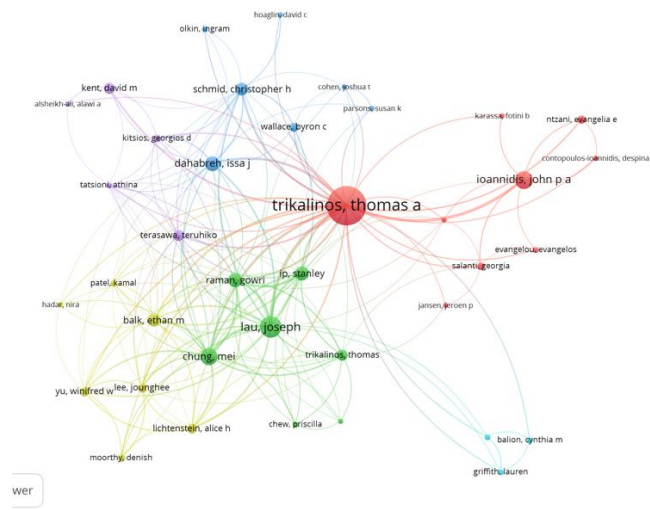

Develop new research direction: decision making under deep uncertainty (ambiguity).

## Research

Mathematical modeling	Cost-Effectiveness
Decision analysis	Evidence synthesis
Deep uncertainty
