Ask me about: Long-term care, decision-making capacity, mental health

Dr. Mills is a gerontologist and implementation scientist dedicated to improving the quality of life and care for older Veterans. Her most recent work focuses on implementing a depression intervention for Veterans transitioning from VA nursing homes to home. She also directs the Advanced Fellowship in Health Services Research and the Summer Research Program at VA Providence.

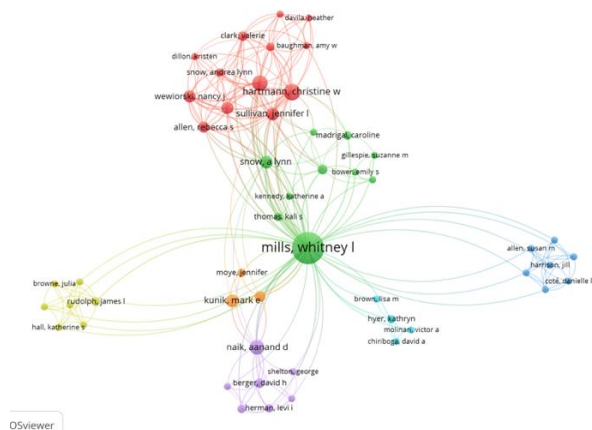

- ## Geriatric Mental Health

Research

Long-term care	Aging
Mental health	Decision-making capacity
Transitions of care
