What is JLV?

Data aggregator for a single patient from multiple systems

Different from CAPRI* and CPRS**

Looks at a single patient at a time

*CAPRI- Compensation and Pension Record Interchange

**CPRS-Computerized Patient Record System

How do I access JLV?

Usage is unique to every project

For research, need to make request for authorization through [VHA data portal](#)

Will need CPRS/CAPRI access

How do I use JLV?

Customize workspaces to suit workflow

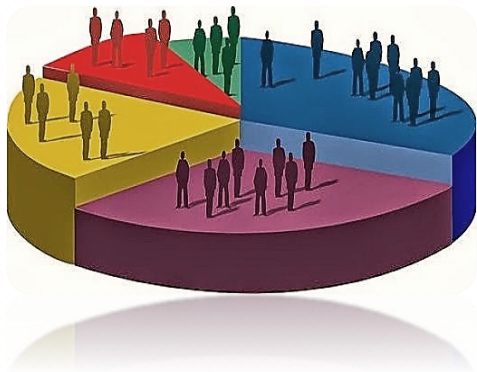

Cross reference different widgets to find information

Limit the results to improve speed and performance

Poll #3:

What is your main purpose for using JLV?

- Research- eligibility and/or verification of data
- Research- above tasks plus chart review or abstraction, adverse event reporting
- Clinical tasks
- Don't use JLV regularly but may in the future
- Other-please describe in Q&A function
